About us

A little more information

Oasis Europe is a Dutch management firm based in The Netherlands and Marbella, Spain. We provide our online and offline services to both property owners and holiday tourists. Our company started as a bridge between second-home owners and the rental industry in Marbella, Spain. We now have clients from all over the world and operate with different local teams. Our company manages a large real estate portfolio by offering Rental Management and Project management services. All our homes are featured on 15+ online channels to reach a broad international audience.

Why us?

Advantages of our services

Our services are designed to provide guests with a top-tier hotel experience while offering property owners a comprehensive management solution. Through in-house property marketing, booking management, and maintenance, we maximize the potential of each holiday home. This approach ensures higher annual income, consistent capital growth, and keeps the property in prime condition, always ready for sale.

Optimisation

Property Marketing

We believe every property owner deserves a personalized plan, crafted to meet their unique needs. After a one-on-one consultation, we will assess and, if needed, optimize the property to attract the right audience. With services including interior design, professional photography, and online marketing, we create captivating listings that help achieve great annual returns.

Efficiency

Property Management

To streamline communication, manage tasks, and coordinate various teams, we use a range of management systems. These systems enable us to provide near-24/7 support, ensuring that every guest receives a response within one hour. Our back-end infrastructure includes multiple tools designed for efficiency, allowing us to handle personal check-ins, organize cleaning and laundry services, inspect properties after each rental, and address any issues during a guest's stay.

Broadcasting

Channel Manager

Each property is listed on all important and affiliated rental platforms to reach a wide, international audience. We strategically choose platforms based on their specific audience and listing type, ensuring optimal exposure. Additionally, all properties will be featured on our own direct booking websites to further increase visibility and bookings.

Legal

Compliance

Oasis Europe is a compliant rental management company committed to operating within all current rules and regulations. We ensure that every aspect of our service—from guest bookings and property maintenance to financial reporting and data protection—adheres to the latest legal and industry standards. Our approach provides property owners with peace of mind, knowing their assets are managed responsibly, transparently, and in full compliance with applicable laws.

Services

Operational Management

Our operational management services combine seamless online coordination with hands-on, on-site execution to ensure exceptional guest experiences. Through digital communication tools and an automated task management system, we maintain real-time oversight of every property, minimize errors, and resolve issues quickly—often between check-out and check-in. At the same time, our dedicated on-site teams deliver high-quality cleaning, maintenance, and proactive support, ensuring smooth operations both behind the scenes and on the ground.

Algorithm

Intelligent Pricing System

As part of our service, we conduct comprehensive research on your property and prepare a detailed rental market analysis, evaluating comparable listings across major platforms to establish a competitive pricing strategy and, where appropriate, integrate a dynamic pricing system. We actively manage financial performance through data-driven pricing that adjusts to demand, seasonal trends, and local events, ensuring your property remains competitively positioned while maximizing revenue. Our goal is to create a steady and reliable income stream, allowing you to enjoy the benefits of your investment without the complexities of daily

Holidays

Personal Usage

As a property owner you can use your property throughout the whole year. The Owner Portal gives direct access to our system and allows you to book your personal stays. Our team is instantly Informed and will prepare the accommodation for your arrival.

Control

Digital Insight

We provide every owner direct access to our owner's portal to view all bookings, have a real-time financial overview of their property and view all property specific updates.

Strategy

Customer Success

The key benefits of our service include personal use of your property, full access to the booking calendar, a transparent financial overview, regular maintenance updates, and clear insight into annual profits. We collaborate closely with each property owner to define specific targets and ensure the service fits your strategy. All our services are strategically designed to maximize your property's performance and help you achieve the agreed objectives.
